Dear Mr. Sperry:

The Company and the Union have discussed the efficiencies to be gained by relocating Engineers in the Power Generation organization closer to their work assignments. In accordance with Title 21.9, the Union has discussed potential worksites with the employees, and the employees listed below have agreed to the assignments shown.

1. Christopher Reid, Associate Power Generation Project Engineer, currently located in San Francisco General Office, will be relocated to the Auberry Power Generation headquarters. Jesse Graham, also an Associate Power Generation Project Engineer, currently located in San Francisco General Office, will be relocated to the Burney Power Generation headquarters.
2. The new report date will be determined by the Company, but will be no sooner than July 1, 2018, unless agreed to by the employee.
3. Each employee will be provided with a moving allowance in the amount of \$7,500 paid upon proof of new residency (i.e., rental agreement, mortgage document, utility service, etc).
4. The allowance will be paid within four pay periods of reporting to the new office.

If you agree, please so indicate in the space provided below and return one executed copy of this letter to the Company.

Very truly yours,

PACIFIC GAS & ELECTRIC COMPANY
