Deborah

This email is to confirm the parties intended and agree to edit the the job duties, in Attachment C for the DOE Journey Engineer to remove:

" #1 Assists with developing, updating, and implementing standards, templates, job-aids, training programs and/or procedures for the distribution operations engineering workgroup, or, as requested, helps support similar tasks for other work groups."

as those duties resides in the DOE Sr Cons Engineer job description.

Also that it was not the intent of the parties to delete and that they agree to restore to the DOE Senior Engineer:

"10. As assigned, provide technical training, coaching, and mentoring to other engineers."
